PREMIUM KMP BRAND **PUMPS**

This document contains a list of fuel, oil and water pumps for a wide range of engines. It is strongly recommended that you check the part numbers listed within this document against your engine serial number prior to ordering.

Please note that this is not an all-encompassing catalogue for the engines, therefore the item(s) that you require may not be listed in this document. A full listing of all KMP supplied components for this engine can be supplied by your sales representative on request.

Parts contained within this document are not guaranteed to be available at the time of publication, however they may be developed at a later date, any item that is not currently available is annotated with an asterisk (*). Items that are stocked at the time of publication may also become discontinued at a later date. Therefore, please contact your KMP sales representative to verify item availability before taking any action based on the information contained within this publication.

- » TURBOCHARGERS

DIGITAL MICROSCOPE

The digital microscope can zoom up to 160x and is invaluable in the measurement of bearing material thickness, coating analysis (piston rings) and failure/crack analysis.

DIGITAL VERNIER HEIGHT GAUGE

KMP use a Granite Surface Plate which allows quick accurate readings when using the digital vernier height gauge.

XRF ANALYSER

Determines the elemental composition of the material of a part through non-destructive spectroscopy.

SHADOWGRAPH

The shadowgraph is used to analyse part profiles and is beneficial in the measurement of valve angles and piston ring profiles.

MECHANICAL PISTON RING TESTER

Ensuring the tension is correct when developing a piston ring is essential within the drawing approval procedure.

ROCKWELL HARDNESS TESTER

All hardened components are tested using either a Leeb Hardness Tester or the Rockwell Hardness Tester.

CO-ORDINATE MEASURING MACHINE (CMM)

The CMM is used to measure the geometry of our parts using various probes. This machine can measure down to a resolution of 1 micron.

CUTTING EDGE TECHNOLOGY

ISO 9001

CUTTING-EDGE METROLOGY

PREMIUM PARTS ENGINEERED TO HIGH STANDARDS IN OUR INDUSTRY LEADING METROLOGY DEPARTMENT.
